

Network Techlab (I) Pvt. Ltd. - Your IT and Power Consultant For Customized Business Solution

Network Techlab (I) Pvt. Ltd. have perfected the art of harnessing right resources to achieve excellent performance be it in the Field of IT, Networking or Power Solutions. We have successfully added Values to Work for small, medium & large organizations for the last 20 years. We believe Quality in a service or product is not what you put into it. It is what the client or customer gets out of it.

As a well established firm in Power, we understand the ways and the factors necessary to Smoothline the operations are:

- Continuity Of Operation - No Downtime
- Energy Efficiency
- Optimize Infrastructure
- Pollution Free Environment (Green Energy)

Uninterruptible Power Supply (UPS) Solution:

Today the basic need of each enterprise is too have a 100% Up-time to cater their customers with flawless services. We are recognized as the noted entity in this domain captivated in offering overall Power Backup Solution. We deliver best solutions of clean and continue power backup to various small, medium and large firms and companies. The offered solution is extensively demanded owing to hassle free management and reliability. Our product Experts assists businesses to understand their power requirement needs in accordance with their facilities and provide them with best solutions. The online UPS is ideal for environments where electrical isolation is necessary or for equipment that is very sensitive to power fluctuations. The main advantage of an online UPS is its ability to provide an "electrical firewall" between the incoming utility power and sensitive electronic equipment. This series not only provides perfect solution for power source protection but also successfully solves problems such as power cut-off, AC high voltage, AC low voltage, instant voltage drop, damped oscillation, high-voltage pulse, voltage fluctuation, surge voltage, harmonic distortion, clutter interference and frequency fluctuation.

Energy Saving Solutions:

As a reckoned name of the industry well known as one of the principal provider of Energy Saving Solutions NTIPL includes services like Energy

Audit, Power Quality Analysis, Electrical Safety Audit, Thermography and products like Detuned Capacitor Bank, APFC Panel, Active Harmonic filters and TVSS.

The top five reasons that people, companies and governments choose to use energy saving solutions are:

- It increases the Electrical Efficiency and reduce the Electrical bills.
- Improves the Power Factor.
- It helps to build Green Environment.
- Minimize the Machine Breakdown.
- Enhances quality of life.

Solar Energy Solutions (The Renewable Energy):

To achieve grid parity and to sustain cost, we offer a complete range of sustainable, modern and cost effective solar solution. We believe in providing comprehensive range of innovative solar solutions ideal for domestic as well as rural markets that can also be customized as industry which creates remarkable impact on saving your energy bills. We Work with a mission to achieve free, clean, infinite and reliable source of green energy for SMEs.

Smart Data Center Solutions (Intelligent & Integrated Solution Within a Box):

We can Deploy Fully Integrated 'Plug-N-Play' Data center in just few weeks. We help you re-engineer your data center infrastructure and align security, monitoring & capacity needs with business outcomes and help you realize full potential of your investments. We also enable optimum reusability and technology consumption.

BMS Monitoring Solutions:

Monitoring of the health and status of the Equipment along with the environmental conditions i.e. temperature and humidity, leak and

smoke is very vital for any business organization's smooth functioning. In order to Monitor the improved communication speed in transmitting control or commands to the equipment and parameter setting Records Data and Logs of historical information of alarms and notifications Network Techlab provides a perfect BMS Monitoring solutions.

Besides the wide range of above solutions, we provide a large range of products and Services for all SME's:-

Products:

- All types of SMF and Tubular Batteries.
- Isolation Transformer
- Stabilizer
- Active Harmonic Filter (AF3)
- Transient Voltage Surge Suppressor (TVSS)
- Automatic Power Factor Corrector (APFC Panel)
- RDU, IPPDU and KVM - Data Center Monitoring Solution

Services:

- Installation and Distribution - End to End Electrical Projects
- Energy Audits
- Power Quality Analysis
- Thermography
- Chemical Earthing
- Online UPS Support and AMC
- Structured Cabling

Precision Air Conditioner
