- Ahmedabad

Regardless of your size, you can't afford for your critical business systems to go down and you can't waste time recovering your IT infrastructure after a disruption.

Network Techlab (I) Pvt. Ltd., the Premium Partners of Vertiv (Emerson Network Power), is a company that combines technology with design to supply innovative solutions for the benefit of its customers. NTIPL's broad technology base and expertise support a full spectrum of enterprise-wide solutions for today's vital business needs.

INFRASTRUCTURE MANAGEMENT
Improving performance of the IT infrastructure and environment

HIGH DENSITY
Delivering architectures from 10-60kW/Rack to minimise space and costs

ECO AVAILABILITY
Balancing high levels of availability and efficiency

FLEX CAPACITY
Adapting to IT changes for continuous optimisation and design flexibility.

Liebert ITA delivers Efficiency Without Compromise and offers reliable and flexible secure power in a fully integrated package solution. It comes complete with highly efficient transformer-free double conversion technology allowing it to provide installation and operating cost savings.

With a rated output power factor of 0.9, the Liebert® ITA is also able to provide 11% more active power than a traditional 10-40 kVA UPS.

Liebert® ITA combination of performance features, impressive integrated autonomy and compact footprint makes it ideal for guaranteeing clean, continuous power for a wide range of applications.

Liebert ITA achieves up to 95% efficiency in double conversion mode and up to 98% in Eco mode ensuring effective load protection while reducing the total cost of ownership (TCO) and environmental impact.

Network Techlab (I) Pvt. Ltd.

41, Sarvodaya Ind. Estate, Off Mahakali Caves Road, Andheri (E)
Mumbai - 400093

Features and Performances

- ☑ 0.9 output power factor
- ☑ Double conversion efficiency up to 95%
- ☑ Easy site installation and configuration
- ☑ Ecomode efficiency up to 98%
- ☑ Active input power factor correction (PFC)
- ☑ Input current total harmonic distortion correction (THDi) < 5%
- ☑ High capacity battery charger
 - 10-20kVA ~ 4.5kW
 - 30-40kVA ~ 6kW
- ☑ Input/output and bypass circuit breakers
- ☑ Integrated manual bypass
- ☑ Integrated parallel load bus and synchronization port (LBS)
- ☑ 3X3 /3X1 Configurability
