Chemical Manufacturer

Solution Offered
Print Solution-iR Multi function Device

Overview

Coromandel Agrico Group is India's pioneer crop protection and plant nutrition driven group that has been leading the agricultural inputs market for over 48 years with innovative and high-quality plant and soil products.

The group is known for the ability to build and sustain brands that spell quality. Coromandel Agrico has envisioned a healthier and greener world with bountiful harvests on sustainable basis.

Challenges

- Increase in cost of printing due to wastage of paper.
- Occupying more space and usage of multiple machines resulting in a clutter.
- Unauthorized users causing mismatch in the paper usage
- Difficulty in servicing number of machines

Solutions

- Unified Printer used for printing all different sizes on a uniform print page which decreases the wastage of paper.
- Single printer occupying less space leading to standardization of the work.
- Less wastage of paper because of centralized printing and proper monitoring.
- More secure flow of documents and avoidance of unauthorized personal.
- NTIPL's best in class service with proper maintenance and availability for desired parts all under one roof.

Why was there a need to switch ?

Coromandel was using multiple A4 Printers and its monthly printing volume was 40000 due to which the printing and consumption cost were very high. Also placing multiple printers used to take up a lot of desk space. In addition print monitoring such as monitoring paper wastage, document security and tracking unauthorized users was next to impossible.

Conclusion

- 60% less cost on printing.
- Consumable costs have decreased by 40%.
- Maintenance and supply management efficiency has increased.
- Downtime near to zero.
- Original machine with zero quality compromise.
- No malfunctioning of meter - saved on cost.
